### Glass-Ceramic printing machine

#### Galaxy

This is one of the latest developments in the field of decoration on glass, china and ceramics (glazed and/or non-glazed) built for printing large series with a diameter up to 320 mm.

The GALAXY is a fully automatic printing machine, with conveyor & loading, optical recognition and positioning of the objects, backstamp-unit, heated & closed inkcup(s), automatic ejection, automatic colour registration, up to 12-colour printing and automatic take-up of the decoration. Changing over between series happens very quick and easy.

**12 color pad printing system to print on ceramic plates**
