

### Platinum-line

The PLATINIUM pad printing range belongs to the top of our standard printing machines.

Equipped with advanced and easy to operate controls, the simple and user friendly menu allows individual adjustment of every movement on the machine from the front LCD display including delay times between movements to help with those difficult products. There is also a memory function, capable of storing up to 12 programmed settings.

- Closed ink cup system allowing quick, easy change-over and reduction of odour and solvent evaporation.
- Automatic pad printing machine with intelligent control.
- Option of automatic pad cleaning: pneumatic system for removal of dust particles and ink residue by using a special adhesive tape.
- Rotary table for multicolor printing without loss of volume.
- Can be supplied as modular for integration into existing production lines.
- Choice between 4 available standard languages: English, French, German or Dutch.
- Independent actuation of every movement: ink take-up, ink deposit, inking in steps, continuous inking, performance of a complete print cycle, continuous printing with adjustable interval between successive print cycles.
- Also features a parts counter to run continuously or up to a pre-set value.

The Platinum series features a parts counter to run continuously or up to a pre-set value. And the controls are electronic. Since the drive is pneumatic (5 up to 6 bar dry and free of oil), the setting of the speeds of every movement and the pressure of the ink cup on the printing plate is possible. Since the drive is pneumatic (5 up to 6 bar dry and free of oil), the setting of the speeds of every movement and the pressure of the ink cup on the printing plate is possible.

Model	Max print	No of colors	Speed
Platinum 65	Ø 75 mm	1,2,3 or 4	Max. 1600 cycles/h
Platinum 90	Ø 115 mm	1,2,3 or 4	Max. 1400 cycles/h
Platinum 130	Ø 140 mm	1,2,3 or 4	Max. 1400 cycles/h
